## Summary

Sophomore computer science and physics double major with a penchant for problem solving.

Looking to learn as much as possible about tech and challenge myself as much as possible.

## Areas of Experience

Java, advanced programming techniques, data structures, data entry

## Skills

Technical: Proficient in Java, Unix command line, and Excel.

Interpersonal: Extremely hard-working and motivated. Friendly and mild-mannered.

Transferable: 9 months of being a barista and waiter where I processed large orders and prioritize, as well as exercising my working memory. Memorized 50+ types of beverages, muffin flavors, various pastries, and all prices. Trained 3 people for the same job.

## Hobbies and Interests

Rubik's cube solving, and making gourmet coffee. 4+ years of formal training in classical and jazz percussion and music theory.
